About Me

I am a detail-oriented Front-end developer with great communication skills and team-work ability. My passion for programming is driven by my desire to build high-quality, user-friendly products that can make living easier.

Experience

Intern, Front-End Developer

WEBCITY (November 2022 -December 2023)

- Wrote and reviewed code base with a team of front-end developers under the strict supervision of a senior front-end developer.
- Built a game as a project with over 10 downloads.
- Learnt how to work with a team.
- Built reusable code bases with a team of front-end developers and conducted cross-browser testing for products to check usability and responsiveness.
